Related Projects (Portfolio, Hosted by Github)

- Ramen Ratings Python Notebook
  - In this project, I analyzed a dataset of instant ramen ratings, applying various data cleaning, exploratory data analysis, and visualization techniques.
- Pokémon Excel Analysis
  - I analyzed a dataset of Pokémon species using Excel. I examined their types and combat statistics to identify patterns and insights for strategic gameplay.
- SQL Murder Mystery
  - A fun SQL exercise I completed to display my SQL abilities and thought process.

Education

BACHELOR'S DEGREE | UNIVERSITY OF TEXAS AT ARLINGTON

- Major: Computer Science Engineering
- Related coursework: Fish Quest Mobile App, Datamining Course, Relational Databases Course

GOOGLE DATA ANALYTICS PROFESSIONAL CERTIFICATE

Skills & Abilities

DATA ANALYTICS

- I possess strong data analytics skills, demonstrating proficiency in problem solving using datasets and tools such as Excel/Google Sheets, Tableau, Python, and SQL. With a keen eye for detail and drive to never stop learning and improving, I believe I am a strong candidate for any Data Analyst Position.

COMMUNICATION AND TEAMWORK

- Very strong in teams, able to both take charge when it's needed as well as let someone else lead when they are better suited for the task. Strong professional communication skills, and particularly adept at explaining complex ideas to those who may not understand fully at first.

Relevant Work Experience

CODE SENSEI | CODE NINJAS | DECEMBER 2020 – MARCH 2022

- Education position focused on teaching children the basics of programming.

INTERN | VETTY INC | JUNE 2021 – AUGUST 2021

- Remote summer internship where I was on the automation team using Javascript to automate web application testing.
